**FOR IMMEDIATE RELEASE**

### **SUNHILLO TECHNICAL SERVICES AWARDED \$151-MILLION FEDERAL AVIATION ADMINISTRATION CONTRACT**

West Berlin, New Jersey, April 28, 2017 – Sunhillo Technical Services Corporation has been awarded a \$151-million dollar contract by the Federal Aviation Administration (FAA) to provide Enroute and Oceanic Support Services (EOSS). This contract delivers Second Level Engineering (SLE) support to the FAA in support of our National Airspace System (NAS), Enroute and Oceanic systems operations, Information Systems Security (ISS), Administrative Computer Systems and Business Operations. The main support activities will occur at the FAA William J. Hughes Technical Center (WJHTC) in Atlantic City NJ. The contract period of performance is seven years.

“This is an exciting win” said Bob Walczak, the EOSS Program Manager. “It represents a milestone in our progression to become the premier supplier of talent to the FAA. This is also a win-win opportunity. It represents a critical win for Sunhillo Technical Services while providing the FAA with the best quality talent our industry has to offer. We are grateful to the FAA and our employees, who are the most valuable assets we have to offer.”

Sunhillo Technical Services along with principle subcontractors Enroute Computer Solutions (ECS), Air Traffic Engineering (ATEC), LS Technologies (LST), Computer Systems Designers (CSD) and Guice Associates will provide resources to supplement seamless day to day support operations to the FAA. Additional support will be provided by Evans Inc., Ricondo & Associates, Inc. (R&A), Embry-Riddle Aeronautical University (ERAU), CareerBuilder, and Rowan University.

Sunhillo Technical Services, subsidiary to Sunhillo Corporation, with headquarters located in close proximity to the WJHTC, is an ISO 9001:2008 certified company currently supporting multiple FAA WJHTC programs including SOS-8 (Service Operations Support), DCIS (Data communications Integrated Services – Datacom), LSS (Lab Support Services), and AIMM (Aeronautical Information Management Modernization).
