FOR IMMEDIATE RELEASE

SUNHILLO TECHNICAL SERVICES AWARDED DCIS PARTNER OF THE YEAR AWARD BY HARRIS CORPORATION FOR PROGRAM EXECUTION EXCELLENCE

West Berlin, New Jersey, November 14, 2016. Sunhillo Technical Services (STS), as part of the Harris Corporation Data Communications Integrated Services (DCIS) team, has been recognized as a 2016 DCIS Partner of the Year for their outstanding services support and excellence in program execution.

This is the second award received by STS for services excellence to the DCIS team that resides within the FAA William J. Hughes Technical Center (WJHTC) in Atlantic City NJ. Sunhillo Technical Services role on the DCIS program is to provide systems engineering support, scheduling and project control services as part of the Harris integrated Test and Evaluation (T&E) team. Other services within the WJHTC provided by STS include T&E to the Aeronautical Information Management Modernization (AIMM) program, Lab Support Services (LSS) within the WJHTC and Second Level Engineering (2LS) support to the Service Operations Support (SOS) eight program. In 2015, Sunhillo Corporation was also named one of the Best Places to work in NJ.

“We are very pleased by this award,” said David Whitman, President of the Sunhillo Corporation, “because it is validation that we are operating in accordance with our core values in providing highly qualified, competent, and customer focused talent to the FAA, while demonstrating the highest standards of honesty and integrity through our performance and professional conduct at all times. Our thanks to our STS staff, the FAA and Harris Corporation for this honor.”

Sunhillo Technical Services, a subsidiary to Sunhillo Corporation with headquarters located in close proximity to the WJHTC, provides engineering, test and evaluation services to the FAA, partners and customers worldwide.
