FOR IMMEDIATE RELEASE

SUNHILLO OPENS NEW OFFICE NEAR FAA WILLIAM J. HUGHES TECHNICAL CENTER, NJ

West Berlin, New Jersey, September 11, 2017 – Sunhillo Corporation, a leading supplier of both products and services to the FAA and ATC/ATM business community, announces the opening of a new satellite office located in Egg Harbor Township, NJ. The new office is located in close proximity to the FAA William J. Hughes Technical Center and supports Sunhillo Technical Services (STS) operations. The new office will house project specific support personnel and the STS corporate, administrative, and Human Resources (HR) functions.

The new office space will also support the company's continued growth strategy. "Over the last several years, our evolution as a company has been outstanding", said Dave Whitman, President, Sunhillo Corporation. Over the past five years, Sunhillo has skillfully expanded operations to accommodate a Compound Annual Growth Rate (CAGR) of over 33%. Sunhillo has established a sales presence in the United Kingdom, opened a satellite office in San Diego, California, created an agency presence in Brazil and South America, and built a network of product distributors worldwide. Further expansion is envisioned to include the Washington DC area in support of future FAA HQ business. "As we continue to grow and expand, it is imperative that our quality of professional services, reputation for product excellence, and superior customer services also continue to grow", added Dave, "we support our products and will continue to service our clients, regardless of their locality worldwide".

For over 25 years, Sunhillo Corporation has been providing products, services and expertise to the FAA, US DOD, Air Traffic Control (ATC) industry, and Air Traffic Management (ATM) partners worldwide. Sunhillo has become the preferred provider of surveillance data distribution products, services and systems to the FAA, the U.S. Navy, U.S. Air Force, and civilian ATM providers in Asia, Europe, South America and the Middle East. Sunhillo Corporation, through Sunhillo Technical Services, also provides hardware and software engineering, second level engineering support, test and evaluation services. Sunhillo Corporation has a long history in providing solutions support, as valued teaming partners, on FAA NextGen initiatives including the STARS, TAMR, ADS-B, DCIS, and AIM programs.
